			Pipit Mutiara Indah concession.		<p>deforestation alert detected through their Supplier Group Compliance Verification programme. Based on the supporting document submitted by supplier, it was clarified that the deforestation happened outside their concession boundary. PMI did not carry out any land clearing inside their concession for oil palm development. First meeting with PMI was conducted in May 2019, where Wilmar has reiterated the NDPE policy compliance. PMI provided written confirmation to the commitment of NDPE policy and shared their concession map for our ongoing monitoring.</p> <p>They continue to monitor the case and their internal monitoring report in October 2019 has detected land clearing at PT PMI. During Wilmar's investigation and engagement with PMI, it was clarified that the area has already being felled several years ago and now being cleared for planting. However, as there was no HCS/HCV assessment conducted, they</p>
