

Safety Days program

Safety Day is the company's initiative to promote and provide exposure to aspects of occupational safety and health practices, integrally through engagement with stakeholders, namely employees, vendors and contractors and safety and health practitioners.

Safety Day 2018 was conducted at ISF Dengkil for 3 days from 14 until 16 August 2018. Various activities are carried out throughout the program for several days, including inviting relevant government agencies such as **National Institute of Occupational Safety & Health (NIOSH)**, **Social Security Organisation (SOCSO)**, **Jabatan Keselamatan Jalan Raya (JKJR)**, **Agensi Anti Dadah Kebangsaan (AADK)**, and others, and co-joint by representatives from specialist medical center, **KPJ KAJANG** which conduct activities such as talks, exhibitions and promotions, quizzes and related mind games.

Ultimately, the objective of this program is to stimulate the minds of all parties to be sensitive, and to preserve the safety and health of themselves and the people around them, either at the company premises or in the community and thereby become a catalyst for health and safe culture.
